

SPEED (Max)	9450 rpm
ARBOR	M14
DISC CAPACITY	125mm Dia 22.23 Bore
HYD FLOW RANGE	20 to 40 Litres per minute
MAXIMUM FLOW	40 Litres per minute
PRESSURE RELIEF	155 Bar (2250 Psi)
SYSTEM TYPE	Open Centre
PORTS	-8 SAE O-Ring
HOSE WHIPS	1m Long
CONNECTION	Flat Face Couplers
LENGTH (less Guard)	320mm
WIDTH	65mm Ø
WEIGHT	3 Kg (without hose)

## Features and Benefits

The Hopkins GR05 underwater Grinder is a compact yet powerful 5" (125mm) grinder for a wide range of maintenance & inspection jobs. It is primarily designed for cutting, grinding and cleaning tasks.

With its standard 22.23mm sized spindle, there is a vast range of cutting and grinding discs as well as brushes and flap wheels readily available off-the-shelf to suit any application.

It can be run from a wide range of hydraulic flows from 20 to 40lpm @ 155bar.

This versatility means that the GR05 Grinder can be run from almost any hydraulic circuit.

This professional tool is powerful yet light and features a safety trigger system which prevents accidental operation of the tool. In addition the head can be rotated to allow better access to awkward places or for diver comfort.

The power-to-weight ratio of the GR05 makes it easy for divers to operate but still powerful enough to bring even the toughest jobs down to size. The GR05 is perfect for smaller and medium sizes tasks.

**This tool is primarily designed for underwater use.**

### GR05 Rotational Speeds

4750 rpm @ 20 lpm

7100 rpm @ 30 lpm

9450 rpm @ 40 lpm

### ORDERING INFORMATION
